

 **CATERING**

Catering Shouldn't Require Another Platform

Catering checks are **10x larger** than traditional orders, but many brands still run catering on a separate platform that never connects to their POS.

Checkmate brings catering into the same system as first-party ordering, third-party ordering, menu management, and delivery.

 **Built for Catering Programs**

Create catering experiences tailored to your brand, customers, and operational requirements.

- ▶ Fully customizable UI, tailored to your brand
- ▶ Dedicated catering menus
- ▶ Custom ordering rules and lead times
- ▶ Flexible pricing and promotions

 **Drive More Revenue**

Turn catering into a meaningful revenue channel while creating a seamless experience for guests.

- ▶ Increase avg order value through larger orders
- ▶ Capture more event catering opportunities
- ▶ Encourage repeat business
- ▶ Expand your reach through delivery partners

 **Built to Scale**

Support catering programs across locations with technology trusted across **27,000+** restaurant locations and **700M+** orders processed.

- ▶ Multi-location management
- ▶ Corporate accounts and invoicing
- ▶ Tax exemption support

 **Why Checkmate?**

- ▶ 50+ POS integrations
- ▶ 99% reduction in order errors
- ▶ 24/7 support from restaurant tech experts
- ▶ Gain visibility into performance across locations
