Bring On-Demand To On-Premise

Everyone wants things faster, better and NOW! Guests want faster service and restaurants want better utilization of their staff's time. So, what if the same technology that enables off-premise digital convenience and efficiencies can be brought to the tables in your restaurant?

ItsaCheckmate, the center of a restaurant's digital ordering business, extends beyond 3rd party delivery platforms to take integrated menus to Table Direct, a self-service digital ordering solution that allows guests to view digital menus, order and pay directly from their phones. No more waiting!
