

 **KIOSK**

Faster Ordering. Better Guest Experiences. Higher Check Size.

Kiosks drive 10%+ higher average check sizes while improving service speed and helping teams operate more efficiently.

The challenge isn't implementing kiosks, it's ensuring they work seamlessly with the rest of your ordering ecosystem.

Checkmate eliminates disconnected systems - helping restaurant brands increase sales, speed up service, and improve the guest experience.

 **Connected Ordering**

Checkmate allows brands to manage kiosks alongside web ordering, mobile ordering, menu management, and POS systems from a single platform.

- ▶ Unified web, mobile, and kiosk ordering
- ▶ 50+ POS integrations
- ▶ Real-time menu synchronization

 **Drive More Revenue**

Give guests more reasons to add to their order throughout the ordering journey.

- ▶ AI-powered upsell capabilities
- ▶ Personalized product recommendations
- ▶ Dynamic promotions

 **Designed Around Your Brand**

Create a kiosk experience tailored to your brand, operational needs, and technology preferences.

- ▶ Processor agnostic
- ▶ Custom design & layouts
- ▶ Personalized ordering experiences
- ▶ Flexible deployment options

 **Built To Run Reliability**

Keep orders flowing and guests moving with technology designed for day-to-day restaurant operations.

- ▶ Offline capabilities
- ▶ Reliable performance across locations
- ▶ 24/7 expert support
